

■ The LED Emblem

with BoardFree Technology

AEC-Q101 / AEC-Q102 Certified

- Luminance up to 5000 Cd/m²
- Color Harmony and Uniformity
- 100-200 mA Current
- Integrated fault detection and thermal protection

Radar Transparent

- 76 GHz - 77 GHz
- <1.0dB Single Path Attenuation
- <-15dB Reflectivity
- 5deg to 30deg Mounting Angle

Designed with Durability in Mind

- Fully sealed electronics
- Water, chemical & UV resistant
- Impact resistant
- Advanced thermal management

The Emblem.

Make your brand stand out on the road. Innotec's grill emblems are light weight, powerful and bright. With over-molded thermally conductive polymers, our grill emblems deliver a 'lumen to weight' ratio that is unmatched in the industry. In addition, Innotec's grill emblems are RADAR transparent. With our BoardFree technology, these emblems can withstand any weather condition.
