

Low Profile Work Lights

Pencil-thin. Remarkably bright.

Built Tough for the Toughest Environments:

Rain, dust, rugged conditions – our work light thrives. Whether it's on a tractor in the field, a delivery truck, or heavy machinery at a construction site, it's ready for action. With a sealed waterproof assembly, it's ready to shine in the dirtiest locations.

600 Series work light

- 5000K LED cool white
- Operating voltage: 11.5-16V @ 540mA
- Optic - Flood pattern
- Certifications - IP67, R10

900 Series work light

- 5000K LED cool white
- Operating voltage: 11.5-16V @ 900mA
- Optic - Flood pattern
- Certifications - IP67, R10

Our LED lighting is built with durability in mind, featuring patented BoardFree® technology.

Daisy chain option available

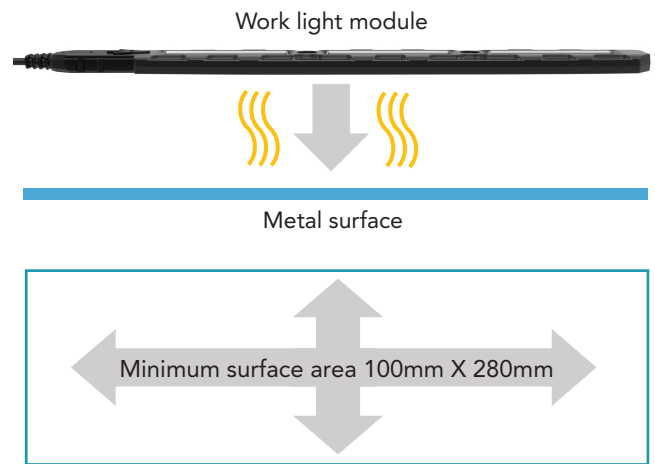

900 Series work light heat management

Series 900 lights can be mounted to a metal surface eliminating the need for an additional heatsink. Please refer to the illustration on the right for surface area requirements.

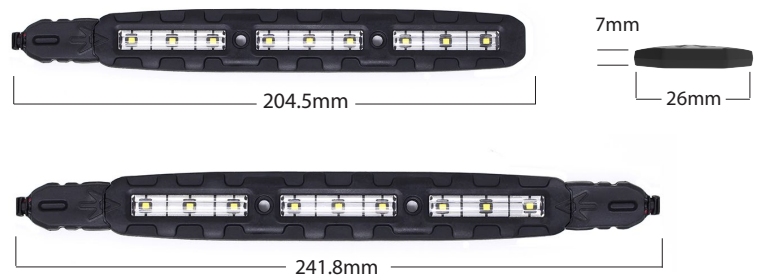

Optional optic features

Achieve versatile and precise lighting needs with customized beam angles using our innovative insertable optics.

Dimensions

Part Number	LEDs	Lumen Output	Connection	Mounting
IL06133	9	600	Single side + 6' Cord	Any application
IL06134	9	600	Double side + 6' Cord	Any application
IL06135	9	900	Single side + 6' Cord	Mount to metal surface
IL06136	9	900	Double side + 6' Cord	Mount to metal surface
